

# FOC-10

## FIBER CLOSURE

The FOC-10 Fiber Closure can be used for mid-span and is often the primary interface between the outside plant cable and distribution equipment or indoor cable. It accommodates up to 80 single fusion splices in a low weight, compact design, the versatile and reliable design lends itself to multiple mounting options and deployment environments.

Features	Benefits
Compact design	<ul style="list-style-type: none"> <li>&gt; Saves space</li> <li>&gt; Optimal for 24/36/48 fiber splicing</li> </ul>
Capable of being mounted on a pole, wall, strand or direct buried	<ul style="list-style-type: none"> <li>&gt; Eliminates need for multiple closure designs</li> </ul>
No special tools or training required	<ul style="list-style-type: none"> <li>&gt; Ensure quick installation</li> <li>&gt; Saves installation costs</li> </ul>

## Specifications
